bus simulator 16 - mercedes-benz citaro pack

Great Bus! My new favourite!. The wheels of the smallest bus look odd because they are so close together but it does make the cornering tighter. Fast and manoeverable too.. this game is poorly made close to no support for steering wheels and the game interface is poorly developed, the clickable icons are not positioned coorectly. I love the Add-ons for this game, controls are different but easy to get use too, (P.S>I just use the keyboard for 100% controls anyway) and maybe Bus Simulator can add more like this :). Awsome Bus! I enjoyed the looks and the queit sound of the bus, But I would like if dlc buses would be free instead of unlocking them, Since my account somehow reset I cannot Purchase or unlock at this time.. Great buses for bus collectionists. I can give a buy recommendation for all dlcs, but they are not necessary at all costs.. Very good DLC! The new bus are very good and faster! Wonderfoul!. I'd just bought the DLC, it is very nice in terms of detailing and the price is decent

---

for three buses, authorised from Mercedes.
