About This Game

Mini World is a 3D free-to-play sandbox game about exploration, creativity, and start an epic adventure with your friends. There are no levels or restrictions, but only the freedom of your creation. The easy-to-join multiplayer settings allow you to connect via PC and phones anywhere at any time. In our game, you can build a house, an apartment, a castle, or even a city. The sky is the limit. You can also explore the underworld and challenge the Dark-Dragon with your friends.

In addition to Survival Mode, you can download and play some fun mini-games made by other players. There are various types of mini-games, like parkour, puzzle, FPS, or strategy. Of course, these games are fun if you play with your friends!

Mini World is a great platform. With hundreds of blocks to choose from and over 1000 ingame items to play with, you can express yourself in the world anyway you like!

Key Features:

- 1 Enormous Sandbox World – explore an expansive sandbox world with a variety of unique cute monsters, blocks, materials, and mines.
- 2 Unique game - Unique game engine with cute game character design
- 3 Single Player and Multiplayer – jump into a friend's game with friendly fire turned on, or start a new world on your own. Share your game with other players, or join other players from all over the world in theirs.
- 4 Gallery - You can upload or download the works at the Gallery, have a look at the hottest MOD map game map or others' work.

5 Game mode – Survival mode, Creation mode or mini games created by other players, you can enjoy the charm of this game anywhere at any time.

6 Powerful game-editor - There are various types of mini-games, spanning from parkour, to puzzle, to FPS, to strategy, etc... all can be made by the ingame-editor

I am loving Lumo. It has such a gorgeous look and feel, coupled with the chilled ambient electronica atmosphere; it's a really lovely looking experience. The gameplay is perhaps not always so relaxing - it being a throw back to 8-bit isometric games such as Knightlore on the BBC Micro, where, for those not old enough to remember, each room is a self contained challenge to get through, and where the perspective is fixed in one corner. That means some interesting puzzling, some navigation through large maze-like levels, and a lot of primarily dexterity-based platform challenges with jumping, rope swinging, avoiding enemies type play. These can be very challenging. The game pushes you, and some rooms might seem impossible at first. It will test you, but that surge of satisfaction when you complete a tough room is unbeatable. I have shouted at my screen in both triumph and despair with Lumo, but when you perfect a room, or when a puzzle just clicks, it leaves you smiling. I'm not usually a platformer type of gamer, and I'm only partway through, but sure, I can wholly recommend this.. Eleven Legend is a very cheap time-management game (price wise and playing wise).

This small market has many very good games (like the MOAI serie for example) and getting there isn't easy.

So, at first glance, I wouldn't recommend this. However, I didn't encounter breakdown while playing (I finished the first Island) with Win7 64bit. Granted, the levels would need some more polishing (the difficulty settings also) and if you don't mind a little flickering here and there when playing, I guess that's still a cute little game.. Bought and played it out of nostalgia. But it's an old game that surely hasn't aged well. I wouldn't recommend it if you haven't played it back then.. TO GET NOSFERATEEN U NEED TO PLAY A LOT OF CO-OP AND ONLINE SAME FOR HIS MAP

. Kitten Adventures in City Park is a short and simple point and click game. The art style caught my attention, and while clearly made for younger children, it was an adorable little experience. The achievements (which each have cute icons depicting the style of the game) aren't difficult either; they are all unlocked by just finishing different portions of the game.

<3

While Kitten Adventures in City Park itself is free, there is also a bonus content pack that can be bought to support the devs.. I haven't played such a broken game in a while. Some achievements are unlocking with no apparent reason, others are listed as broken and most likely you will never get them. For the person that likes to at least try to have their games 100% finished it's quite annoying.

But I wouldn't call it the worst part... Sometimes the whole levels are broken, textures don't load and you will find that the only solution is to start the game from the beginning.

I was interested in possibility of making photographs, but too often it turned out to be a completely pointless part of gameplay mechanism with no value added to the player's experience. Horror's aspects were very cliché and poor monsters' models were more funny and grotesque than actually scary.

As for the story personally I found it quite boring. I haven't felt any sympathy or dread for the characters' fates. The whole story seemed to be forcefully enigmatic and at the end I have a hard time to understand its conclusion.

Save your time and money - don't buy this game.. Its a short movie and it looks ok. Kinda a dramatized (and worse) version of what you would get in a free youtube ludumdare livestream. If you never ever had contact with game making, this might be interesting for you. In any other case, just go to youtube and watch a gamejam livestream for free, you will actually learn much more without all the drama they try to artificially insert into this thing.

Here is a quick summary of the game.

MC Hammer teaches Martial Arts.. A really fun game.

The animation and the character story are funny

The training at the beginning of the game is very helpful

Waiting for tomorrow to play again. Good fun with friends. I recommend using in game voice chat for the optimal gaming. so chaotic control system!. a Very simple game made to farm achievements,They start unlocking a few seconds into the game. The game itself is very basic and simple, i had no issues with it. Might even be of some use with my toddler for some animal sounds.

Steam announced that they are going to crackdown on supposed false games with spam achievements over 100, so from now on we can get used to seeing achievement spam games dropping down to 100 achievements.. childhood game
